Hermon School Department

Homebound Instruction

Teaching service shall be provided, insofar as possible, either by home/school telephone connection or by teacher visits of one hour a day to any student who is expected to be confined to hospital or home for a period of three weeks or more. This service shall be extended to students who have been enrolled in the public schools for a period of at least three weeks except that the superintendent may use his/her discretion in providing such service at the beginning of the year or for students newly arrived in the community.
